

Unsuccessful application outcome email

Dear XXXX

Ref No: LDIF 13 & 14
Project Names: XXXXX

Thank you for providing additional information and the two videos which were considered by the Learning Disabilities Innovation Fund Grant Panel on Tuesday.

Panel members made an immediate point that Dream Team members had not been asked to collaborate in the projects before the applications were submitted, so should any funding be awarded, this would need to be addressed.

‘XXX’ project:

Panel members described this project - to provide people with learning disabilities with a wellbeing toolkit - as ‘innovative and exciting’ and could see the potential for it to be shared at a regional level.

‘XXXX project’:

Panel members felt that the ‘XXXX’ project was unrealistic – partly because of the short timescale but also because of practical considerations of renting a house, such as ongoing maintenance and other requirements.

However, they suggested that some of the life skills mentioned in this application could be incorporated into the first project.

The Grant Panel recommended that you submit a revised application combining realistic elements from both projects including the following:

- where the activities would take place
- who would be doing the training?
- how you envisage the Dream Team members involvement, and would they be paid?

If you do wish to compile a combined application, **please submit it by Friday 8th October**. There is no need to submit any further videos.

Please contact us if you need any support with this.

Thank you and kind regards

Caroline
